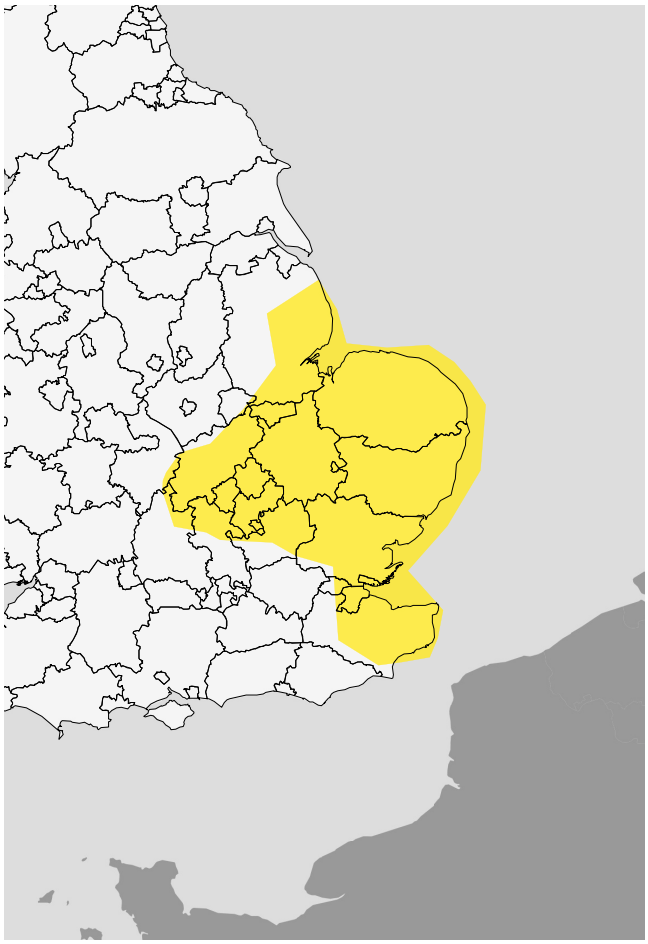
Yellow warning
Ice

Between
19:00 Fri 10 Mar 2023 and
09:00 Sat 11 Mar 2023



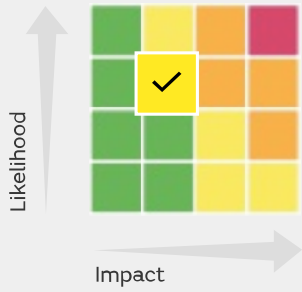
Ice may form on untreated roads and pavements leading to potentially hazardous travel

What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

After evening wintry showers die out, skies should largely become clear across the warning area, allowing temperatures to quickly fall below freezing. Where surfaces remain damp and are untreated, ice will form leading to potential impacts for those travelling this evening, overnight, and at first tomorrow.



Medium likelihood of low impacts

Issued at 17:30 Fri 10 Mar, 2023
